1. In Lodec nad Sazavou (050/144) a new factory is under construction. The factory was originally intended for the textile industry, but was turned over to Kovofinis and is allegedly to be used for work in the field of metallurgy. Ing. Polovinko, a Russian emigrant, is in charge of the construction.
2. In the past few months, all automobile and locksmith workshops which were still under private ownership have been nationalized. In these shops, various small parts for large national corporations such as Skoda Works, and Zbrojovka, are to be produced. From now on, each individual workshop will produce only one kind of parts.
